

How to *practice* using GitHub

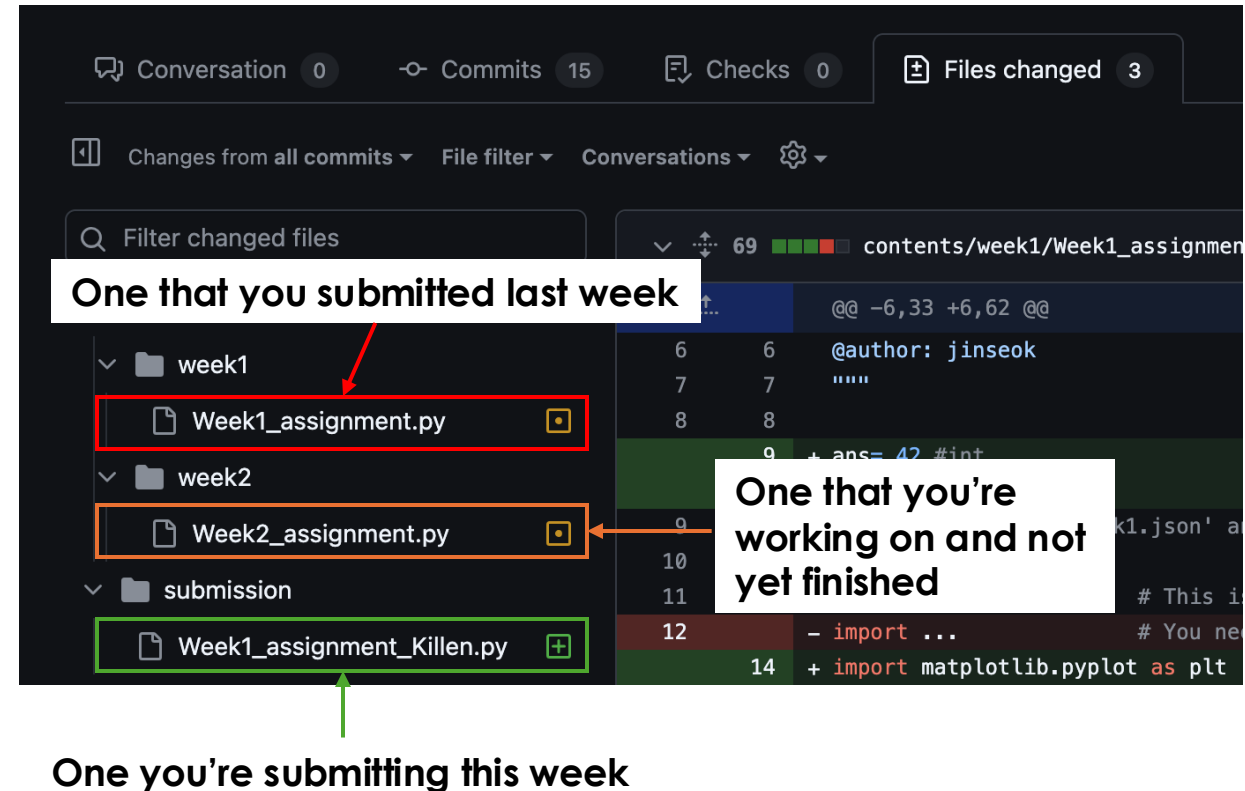

ft. pushing your completed assignment

Changes in how you submit your assignment (10/5/2025)

- You will still be making pull requests.
- Please create a new branch every time you submit your assignment.
- I will review your assignment and close your request instead of merging it.

Why change? Practicing natural Git workflow

- It is easier to manage when each branch changes only one assignment file. That keeps your PR clean.
- Otherwise, I would see *all* changed files in your branch...

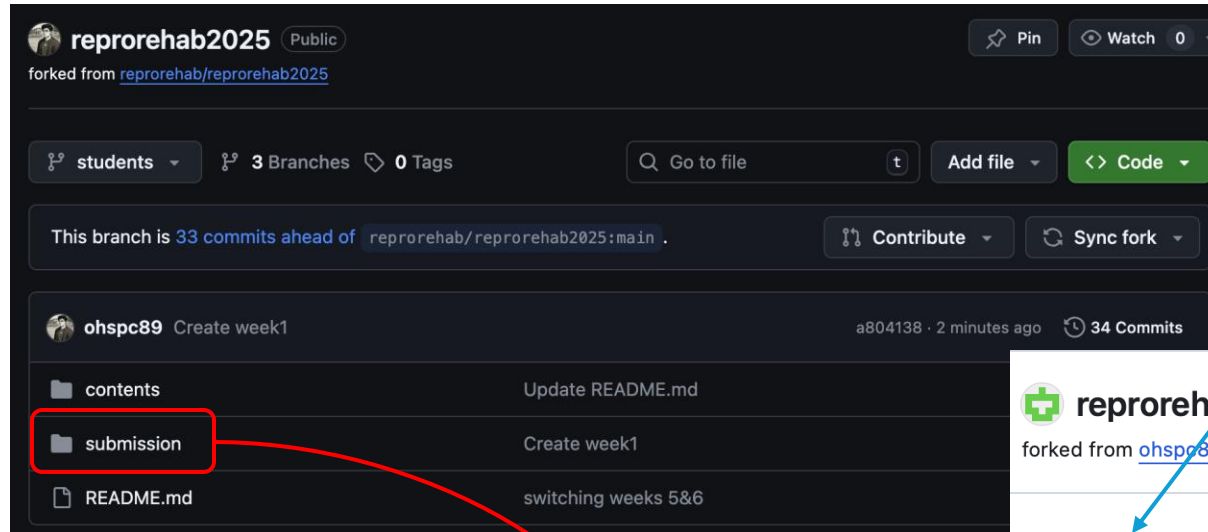

Why change? Practicing natural Git workflow

- Every developer in the world works on separate branches for new features. Consider your weekly assignment as a new feature.
- Every team project and lab uses branches to keep workspace separate.
- You will already know how to make feature branches like a pro.
- You will get into the habit of starting a new work cleanly – no overwriting old work, no losing progress.

From your forked repo, **sync** students branch first

Jin's repository

Click this button to sync.

Not here yet

You can also assume that some changes were made in the original repo that's not yet reflected in your forked repo from this msg.

From your forked repo, **sync** students branch first.

The screenshot shows a GitHub repository page for 'reprorehab2025', which is a public fork of 'ohspc89/reprorehab2025'. The repository has one branch named 'students' and no tags. A notification banner indicates that the current branch is '3 commits behind' the upstream repository. Below the notification, there are two buttons: 'Compare' and 'Update branch'. The 'Compare' button is highlighted with a red box, and the 'Update branch' button is highlighted with a blue box. The notification text says: 'This branch is out-of-date. Update branch to keep this branch up-to-date by syncing 3 commits from the upstream repository. Learn more about syncing a fork.'

Notes

Once you're done, you may still see this message. You don't need to do anything, but just to demystify, click "Contribute" one more time.

The screenshot shows a GitHub repository page for 'reprorehab2025', which is a public fork of 'ohspc89/reprorehab2025'. The repository is currently on the 'students' branch. A red arrow points from the text above to the 'Contribute' button. The text 'This branch is 3 commits ahead of ohspc89/reprorehab2025:students' is underlined in red. The 'Contribute' button is also circled in red. Below the repository information, there is a merge commit by 'jin-chla' titled 'Merge branch 'ohspc89:students' into students', which includes a list of recent commits.
