

How to do assignments (from week 2)

1. Go to the folder of the corresponding week in <https://github.com/ohspc89/reprorehab2025/tree/students/contents> (ex. <https://github.com/ohspc89/reprorehab2025/tree/students/contents/week2>)
2. If you want to work in Spyder, download *_assignment.py and work on your local computer.
3. If you want to use google colab (Jupyter notebook), click the link to the assignment notebook.
4. Save a copy of yours in your google drive by selecting **File > Save a copy in Drive**. You can then open your copy from your drive and work on it.
